

### RZ ONE TWENTY (X-Large)

#### MINIMUM SEAT POST INSERT DEPTH

The seat post of X-Large size RZ One Twenty frames must be inserted a minimum of 110 mm into the seat tube.

A small yellow removable decal is applied to the seat tube of X-Large frames. The X-Large size code "XL" can be found etched into the bottom bracket shell in the area shown below.

#### **WARNING**

**MAKE SURE AT LEAST 110 mm OF THE SEAT POST IS INSERTED INTO THE FRAME AT ALL TIMES.** Failure to insert the seat post correctly can place a very high stress on the seat tube top tube junction causing the frame to break while riding.

Measure 110 mm from the bottom of the seat post. Use a permanent marker to mark the post at 110 mm. When adjusting the seat post height in the seat tube, never adjust the seat post so that the line you mark is above the top edge of the seat tube.

**YOU MUST ALSO BE AWARE THAT** bicycle seat posts are permanently marked by the manufacturer with a "MINIMUM INSERT" line on the seat post itself. You must not rely on this marking as an indication of the proper MINIMUM SEAT POST INSERTION DEPTH.

**YOU CAN BE SEVERELY INJURED, PARALYZED OR KILLED IN AN ACCIDENT IF YOU IGNORE THIS WARNING.**

**Please add this single page supplement to your 2010 RZ120 Owner's Manual Supplement.**

You can download an Adobe Acrobat PDF version of the Cannondale Bicycle Owner's Manual or Owner's Manual Supplement or Tech Notes from our website. Go to: <http://www.cannondale.com/bikes/tech/>.
